- 6. Copy and Paste all of the Snapshots from the folder named "Snapshots for Dolceola Main" into the created path/folder.
- 7. Close the Instrument Options panel.
- 8. Click the Wrench icon again to get you back to the main instrument interface.

For the 2 other instruments "Dolceola – Muted" and "Dolceola – Harmonics" you have to go through the same sequence.

Using the Snapshots:

9. Click the Camera icon in the main interface.

Select a Snapshot by clicking on the dropdown menu.
